

## Backplates for Switch Modules

### Features

- Suitable for all types of teleCARE M and teleCARE IP switch modules
- Available in single, double and triple versions
- Snap-on attachment for the switch modules
- Compatible with various international backboxes
- Can be surface mounted without a backbox
- All versions available in gray and white

### Description

Backplate for all types of teleCARE M and teleCARE IP switch modules.

The backplate is available in single, double and triple versions.

All versions are available in gray and white.

The backplates have an arrangement of fixing holes which make them suitable for mounting on various different international backboxes.

All versions of the backplate have a hole in each corner for mounting without attaching the backplate to a backbox.

Examples of compatible international backboxes:

- Australia
- Belgium
- Czech Republic
- Denmark
- France
- Germany
- Italy
- Netherlands
- Norway
- Portugal
- Spain
- Sweden
- Switzerland
- United Kingdom
- United States (double only)
